-----Career Objective -----

To gain confidence and fame using my potential in this position, and express my innovative creative skills for self and company growth. I'm a hardworking and quick learner. I believe hard work is the only way to success. I love to learn new technology and try to improve myself.

Skill Highlights:

- **Expertise:** React.JS, HTML5, CSS3, Bootstrap-5, Tailwind CSS, DaisyUI, JavaScript, ES6
- **Comfortable:** React Query, React Hook Form, Firebase, Rest API, Node.js, Express.js, MongoDB, JWT, Vercel.
- **Familiar:** Node.js, Stripe, Next.js, Redux, React Native
- **Tools:** VS Code, GitHub, Chrome Dev Tools, Figma, Netlify, Firebase Host.

Experience:

I am joining As a Junior Full Stack Mern Developer, at Bringin Technologies Ltd. My everyday duties will be to work with the development team and product managers to ideate software solutions. Designing client-side and server-side architecture. Building the front end of applications through appealing visual design. Developing and managing well-functioning databases and applications. I will be responsible for writing effective APIs. Testing software to make sure responsiveness and efficiency. Troubleshooting, debugging, and upgrading software. Creating security and data protection settings. Developing front-end website architecture & designing web pages.
